LUXO MIDAS® Inspection System

NEW!

Luxo's new MIDAS® (Microscope Inspection Digital Application System) is a horizontally positionable ESD-Safe digital handheld inspection system which provides a versatile way of capturing and documenting images using a polarizing filter and 1.3 MP USB Camera. With a magnification range of 10X to 200X and an 1/4" Color CMOS image sensor, this system is ideal for assembly, repair, inspection, leak detection, document authenticity, criminology, museum and artwork restoration, currency verification and gemstone and mineral examination. MIDAS® can be used alone or is available with either a 13.8" gooseneck arm or an adjustable boomstand (9.8" horizontal and 11.6" vertical reach).

Features:

- Wide range adjustable magnification from 10X to 200X • ESD-Safe
- Built-in six white-light LED displays & adjustable illumination ensures clear and bright images
- High-quality polarizing filter lens reduces glare for true undistorted color images
